LONG TERM STABILITY

It has been my long term goal to organize the Alumni Association so that any transition in the future would be smooth, painless, and free of the pitfalls that I faced. That process is nearly complete and probably would have been in place by the end of this school year. However, a major change in my teaching schedule has forced a delay in these plans. Now however it's time to move forward.

The advantages of a one-man operation are that you don't have to worry about the boss and you can set things up any way you want. The disadvantages are that you don't have anyone else to blame for your mistakes, you are subject to the whims and fancies of bureaucrats who may or may not see the value of an Alumni Association, and the worst thing is that no one else knows exactly how the whole thing runs.

It's time to change all that. For the future, I envision a group of people, specialists if you will, who could split the load. Many people have written over the years to see how they could help. The time has come to tap that energy source. The Alumni Association is now stronger than ever in all respects. We have recently become incorporated, the balance sheet is more in the black than ever before, and circulation sets a new record with each issue that is produced. The lone missing ingredient is the very necessary long range stability.

Some of the areas where your expertise is needed include the following; editor/writer of the newsletter, computer operator, reunion coordinator, historian, photographer, treasurer, in-school contact, printer, secretary-address changes, and director.

In addition, it is possible that we may need to consider moving the office out of the building and also consider changes in the by-laws and constitution to accomodate a new set-up. I'm willing to remain on board for as long as necessary to insure a smooth and orderly transition.

If you think you would be interested in helping with any of the above categories, then drop me a line here at school, and I'll give you the details of the meeting scheduled to outline the future of the alumni association.

HISTORICAL NOTES

Sometime in the not too distant future I would like to explore the possibility of putting all issues of the Interpreter and Mosaic on either microfilm or microfiche. Preliminary to this, I have completed an inventory of these two publications to see just what is missing. Below is a list of all issues which appear to be missing. Once again I call on your help. Please check through your attic and see if any of these just might be laying around. If they are just collecting dust, please consider donating them to this project.

Missing 'Terps': 5/42, 12/46, 1/47, 4/49, 10/50, 11/50-6/51, 9/56, 10/56, 11/56, 11/57, 9/61, 10/61, 9/62-1/63, 3/64, 2/65, 5/65-9/65, 12/65, 3/66 5/66, 2/67, 12/67, 2/68, 9/74, 10/74. **Missing Mosaics:** 12/37, 12/38, 12/39, 5/40-12/42, 12/51-final issue.

SCRAPBOOKS

Over the years we have been given a number of JMH related scrapbooks. Each usually covers the period of time when the maker was enrolled at JMH. With the passage of time, aging has taken its toll on some of this material. Recently we have started to preserve these bits of the past using "archival safe" materials. Our goal is that a particular era could be made available for reunions. If you have any old scrapbooks, please keep us in mind.

INCORPORATION

We would like to thank attorney John Grady (6/43) for his help in preparation of the paper work resulting in the incorporation of the Alumni Association.

The John Marshall community was saddened by the sudden death of John Page. John had been the chairman of the Fine Arts Department since coming to Marshall in 1981. He was the creator of the character which has become the unofficial trademark of the school. His sense of humor and willing spirit of cooperation will be missed by all of us.

An art scholarship fund has been established in his memory. If you would like to contribute, please send your check to the Alumni Association made out to the John Page Scholarship Fund.
