Alumni Night at John Marshall – December 7, 2002

John Papay

It was a cold winter evening, but the halls of John Marshall High School were as warm as they were in the old days. It was great to walk down the corridors and peek inside the rooms where we spent our time listening and learning. About 400 alumni showed up to see the school one last time before it is remodeled. They were treated to an action packed evening put on by the faculty and students.

It started with a sign-in at a homeroom. You were grouped with classes around the time you graduated. Then it was time to wander the halls

and try to remember what it was like back then and what had changed. There was a sign on the wall that said "At Our School, Character Counts!" It turned out to be more than just a sign. We had a great meal in the cafeteria, a choir and band concert in the auditorium and an exciting basketball game in the gym. The Lawyers won, bringing the event to a close.

Marshall has gone through many changes over the years. Some have been good and others not. But it was clear that Marshall is more like it was back in the sixties than anyone could imagine. Our thanks go out to the faculty and students who worked so hard to

make this an evening to remember.

THE FORGOTTEN TOWNSHIP

Ralph Pflingsten

Honestly now, without looking it up, how many of you can tell me the boundaries of the original township that you went to school in? In fact, how many of you even know the name of that township?

Back in 1996-97 The Alumni Association thought it would be a good idea to put together a history of John Marshall in preparation for the centennial of the school in 1999. Having gone to JMH for six years, teaching there for 25, and serving as alumni director for 11, I knew that the task fell in my corner. As I began to piece it together, I realized that I couldn't separate the school from the West Park community and as I started to explore the community history it became clear that I was in the middle of two separate works.

I finally decided to start at the beginning, the geologic beginning, and work my way forward citing facts rather than just reproducing information and misinformation that was already in print. There are lots of maps, some original, as well as around 200 photographs, most never having been seen before. I have tried to answer questions that just aren't available elsewhere. For example there is a detailed explanation of what that Riveredge Township thing was all about (boy, was that a trip!). Many of you already are aware that this project is underway and are looking forward to the final product. And, so am I! I've been working on it piecemeal as time permits but I have committed to getting it completed this year. Assuming I am successful, that means it will be available before the next newsletter comes out. Because there will be a limited number of copies printed, I want each of you to have the first crack at it. Therefore, if you are interested, indicate such on the tear off on the back of the newsletter, and I will send you a notice with all the details just as soon as it is ready. **ROCKPORT-THE FORGOTTEN TOWNSHIP**. As to the boundaries, I guess you'll have to wait for the book!

The Alumni Trustees are looking for a permanent home - a meeting place with some storage space. As records, photographs, documents and other memorabilia accumulate, we continue to outgrow our storage space. If any business owner in the West Park area (or nearby) has an unused office or spare room that we could use we would be most appreciative.

THE AMAZING CLASS OF 1943

by Elaine (Schultz) Staley

I was honored to attend the 59th class reunion picnic of the class of January and June 1943 on August 2, 2002, held at the W.J. Green Lodge in the Baldwin Wallace Lakes area of the Metroparks. (See picture). I was there to interview the classmates and guests who have been getting together with yearly picnics since 1988, and of course class reunions when appropriate. There I also met a wonderful couple, George and Charlotte (DeRoshia) (6/64) Verga who were introduced at our JMH Centennial in August of 1999 and became married May 4, 2002. (See picture). Talking with Vern Rolland and Dorothy (Bath) Wolf, I was amazed to learn that their class publishes two newsletters yearly and now will be celebrating their **60th** Class Reunion in 2003. This will be their last endeavor, as they have decided that their efforts have been successful enough to keep this class together as long as they could and now it's time for a break. Many of the classmates stay in touch with email or writings. Some of the friendships came about after high school was over and have remained through the years. August 1st, 2nd, and 3rd 2003 is planned at the Clarion Hotel with a Mixer, Dinner Dance and Sunday Brunch. There will be a three piece band, The Highlighter's with Mike Jacobs and a lot of memories. Good luck to you all. What an inspiration to other classes trying to keep in touch.

George 1/43 (left) and Charlotte (DeRoshia) 6/64 Verga met in the JMH parking lot during the Centennial Celebration in August, 1999. They were introduced by classmate Doug Wright (right) when Charlotte pulled alongside Doug's van in the parking lot. They were all wearing bright red JMH tee shirts and decided to take a picture. Then addresses were exchanged and the correspondence between George and Charlotte continued. Their mutual interest in religion and a lot of things in common led Charlotte to give up her Cleveland roots and move to Texas, where she and George married on May 4, 2002.

JOHN MARSHALL HIGH SCHOOL ALUMNI NEWS

The JMH Alumni Association received a letter from Bruce F. Burgy (Class of 51) regarding our Endowment Fund. He wrote:

Dear JMH Alumni,

I am seriously considering endowing a vocal scholarship in honor of my wife, Patricia (Caruso) Burgy. Please see the Final Roll Call in the latest Alumni News (2002). She is the lovely lady on the far right front row of the 1951 Class Reunion Picture in the same issue. Pat studied music under the direction of Olive Gibson at JMH from 1948 through 1951. She was the choir soprano soloist much of that time. She was a cousin of the Great Caruso. We met at JMH in 1948, started dating in 1949, graduated hand in hand in 1951, and married in 1953. She was my inspiration and I would like her to be an inspiration for others...Marshall High Forever, Bruce

Mr. Burgy attended our September meeting to encourage us to progress with the endowment fund. He spoke to those present about his love for JMH and the importance of supporting the school. He is one of the many supporters of our Alumni Association and we thank him. Please consider joining him.

The Endowment Fund Needs YOU

by Michelle Mader

Part of the purpose of the JMHS Alumni Association is to award college scholarships to talented and deserving students. Considering that in general college tuitions in Ohio are among the highest in the country, this is even more important today than it may have been in past years.

In the last issue of the JMHS Alumni News, I wrote about the Alumni Association's Endowment Fund. The purpose of this fund is to generate income from which the Association could provide such scholarships. Our goal is to build the fund to \$1 million over a three year period. However, since the last newsletter donations to the endowment fund, though all very meaningful, have been quite modest in amount.

There are over 20,000 living JMHS Alumni. A small (or large) tax-exempt donation from each of you would go a long way toward quickly building the fund's principal base. Perhaps you could donate non-cash assets such as appreciated stock, or include a gift to the fund in your estate planning. There can be significant tax advantages to these types of gifts.

Also, please take the time to fill out and send in the activities/events questionnaire below. It will help us determine what types of fund-raisers for the fund the Alumni are willing to support.

HELP US HELP YOU GET THE MOST FROM YOUR ALUMNI MEMBERSHIP

Which of the following types of events/activities would you be interested in participating in over the next 3 years? Please indicate your top 3, prioritizing your choices as 1st, 2nd and 3rd. Mail this form back to the Alumni Association at P.O. Box 16678, Rocky River, OH 44116-0678. Thanks.

Statement of Scholarship Grants

The JMHS Alumni grant several scholarships to deserving students on the basis of recommendations of the faculty of JMHS. In the future, grants will also be extended to JMHS graduates who have completed one or two years at a recognized college or university. Those interested may contact us at our mailing address or website for further details.

From the Principal of JMH

Greetings!

We are half way through another exciting school year at JMH and we have already experienced two successful Alumni events! The Hall of Fame Induction Ceremony in November and the Alumni Appreciation Night in December were well attended and everyone had a good time. It was good to see so many Alumni participating in these events.

As Alumni, you can continue to be proud of your old Alma Mater. Our test scores, attendance rates and promotion rates continue to improve. We were city runners-up in volleyball and soccer and city champs this year in golf and swimming. We also expect to win a few more city championships by the end of this school year. Our band and choral music department continue to grow. Both the band and choir will compete in the Ohio Music Association Contest this school year. Our Art Department's Mosaic Wall was such a big hit that our students have been asked by Barbara Byrd-Bennett to design and create a mosaic wall at the Cleveland Board of Education building downtown. This school year, we also started an Ohio Decathlon Academic Team, which will be competing against other city and suburban teams in the area. JMH is also scheduled for renovation this year. We have not been given any details to date, but are hoping for plaster, paint and new windows.

This school year we were also lucky to receive a state of the art Computer Resource Room installed at JMH, which included twenty-six Pentium flat screen computers, new furniture, LCD projector and teacher station. It's fantastic! This computer room was made possible by National City Bank, Cuyahoga Community College and the Cleveland Municipal School District. This room is open for all students and staff daily.

Wishing all Alumni a healthy year. See you at the next Alumni event. GO LAWYERS!

Sincerely,

Cynthia M. Metzger, Principal

JMH Math Teams Win in ~~John Carroll Competition~~ By *Marijane Kubach, Math Dept.*

For the 2nd year, JMH math teams swept first place from other Cleveland Municipal Schools in all the John Carroll Univ. math competition areas on May 14, 2002. Seven JMH teams entered the competition in the areas of advanced math, honors geometry, regular geometry, and algebra. Students were given individual tests on mental math and their competition area. They competed as teams on the math relays and blockbuster problems. Individual scores were added to the team scores to determine winners.

Coached by the JMH math department head, Robert Fast, the two advanced math teams won first and second places. Students on the first place team were: Susan Pho, Linda Tran, Matt Newshutz and Khanh Nguyen. Second place winners were: Claudia Panait, Ioana Grec, Kevin Magpoc and Huy Seng. Minh Truong was alternate.

The two honors geometry teams also won first and second places. These students were: Kathryn Huynh, Danny Pho, Scott Foust and Chi Le on the first place team. Second place winners were: Jessica Odum, Kayla Tran, Christopher Tucker and Amanda Fletcher. The regular team of John Gonzalez, Rom Him, Oswaldo Ortega and Ming Chen also won first place. Gavin Homick was an alternate. Coached by Sean Van.

Coached by Marijane Kubach were the algebra teams, in first and third place. The first place winners were Brian Balog, Owen Wallace, Tyrone Turner and Catra Yun. The third place team consisted of Alex Deliz, Victor Huynh, Domonique Godfrey and Duc Luong. Randa Ketchum was alternate.

Students begin competing for spots on the teams in February and March through JMH mini-contests. Practices are held weekly after school during March and April. This year's competition will be held May 13, 2003. Good Luck Teams!!

JMH Alumni on the Web (jmhalumni.com)

The Alumni Association continues to expand our presence on the internet. Our website is packed with information, both current and historical. Alumni night was advertised heavily on the site and provided information about ordering T-Shirts along with color images of every item. We have teamed up with Paypal to offer secure payments using your credit card. You can make donations, purchase items and pay for tickets to alumni events online. We have re-mastered the 1962 LP Record, Music at Marshall into CD format and you can listen to a clip from that CD as well as make a purchase. We also put a 25 minute audio track from a Christmas Assembly from 1971 on the site to spread some Christmas cheer and bring back some holiday season memories.

Our website is the vehicle to communicate with our alumni between annual newsletters. You will find information about reunions, activities, offers, school history, requests for support and much more. If you have something for the website, please send it to the webmaster, John Papay '63 (john@papays.com). Sometime this year we will be moving our site to a new webserver. The address will not change but our new site will be more robust and offer many new features including a bulletin board similar to classmates.com.

Thank you for supporting the Alumni Association. You have made all of this possible.

Please help! We're constantly updating our database, enabling us to help out reunion committees. There are many JMH alumni who have never received the Alumni News, heard that their class was having a reunion, or even know that there is an Alumni Association. Several of you have brothers, sisters, cousins, parents, and children and some of you remain in contact with classmates that have attended JMH. It's sad to say - they may be missing from our database. Would you please take the time now to give us an update on their current mailing address? We're also trying to confirm the deceased members of the JMH family - reunion committees have a hard time with this area - so if you can supply a date of death (a copy of the OBIT would be helpful), it might prevent an embarrassing or upsetting phone call around reunion dates. Don't forget to include class and year - if you don't know it, take your best shot!
